EXPERIENCE

iOS and MVC Developer—*IT Department, SAU*
MAR 2018 - PRESENT (2 YEARS)

• Maintain and deploy the iOS app: Southern Adventist University.

• Implement iBeacon in the app for students and faculties to interact with beacons at the university to get information about events or locations.

• Handle ASP.NET projects: Attendance Tracking System, Course Schedule.

Android Developer—*Center for Innovation & Research, SAU*
JAN 2017 - AUG 2017 (8 MONTHS)

• Create the Android application: Adventist Giving.

• Implement functionalities and fix bugs that are requested by our client.

MAIN PROJECTS

Adventist Giving—[*Google Play*](Google Play)
Develop the application from scratch and fulfill the client's requests.

Southern Adventist University—[*App Store*](App Store)
Implement iBeacon functions, update, and publish the application.

Laboratory—[*Github*](Github)
A personal iOS project that helps scientific professionals manage laboratory sections and equipment more collaboratively.
It is built using the MVVM pattern and Google Firebase.

Klozet—[*Github*](Github)
A personal iOS project that manages clothes and outfits.
It includes the uses of Core Data and Google Firebase.
